- Adaptability

About Me

I have been working as a developer for MetaTrader for the last 3 years on a freelance basis, Upwork mainly. I developed various trading robots/scripts that simplify trading. Developing was performed using MQL language, it's very similar to C++.. Also, I have experience in QA, I worked for Gameloft company in 2019 in Lviv's office.

Professional Experience

QA tester at Gameloft 2019–2019

Team of 14 people
